

## Activation Token Quick Start Guide – 11.11.0

Congratulations on your purchase of a Total Recall VR professional audio logging and call recording system.

Thank you.

Your new Total Recall VR recorder comes with 3 Activation Licenses for any of the following Total Recall VR PC applications:

- Total Recall VR Desktop
- Total Recall VR Monitor
- Total Recall VR Browser
- Total Recall VR Manager
- Total Recall VR Audio Player
- Total Recall VR Event Player

To find out more about the Total Recall VR PC applications please visit our web site:

<http://www.totalrecallvr.com/applications>

Please note the following regarding the Activation Licenses:

***Each Activation License activates one application only. In addition, each Activation License is node-locked and is not transferable.***

That is, each Activation License activates one, and only one, of the above-listed application on one, and only one, PC and cannot be used to activate a different application on the same PC, or the same or different application on another PC. If you retire a PC with an Activation License for an application, and wish to use the same application on a new PC, then you need to obtain (fee may apply) a new Activation License for the application for the new PC.

If you need more than 3 Activation Licenses, then please contact your point of purchase or visit our web site to purchase additional Activation Licenses.

You will receive the 3 Activation Licenses in a form of an Activation Token which you can use to activate any of the above-listed application on any PC. This is an example token (example only, the token is invalid and will not work if you attempt to use it):

ZU2QL-DSFGK-GHAHA-3NW9B-24RAH-LJQ9A-A9LEH-GTPH5-3G6L4-XJPTX-H5SEA

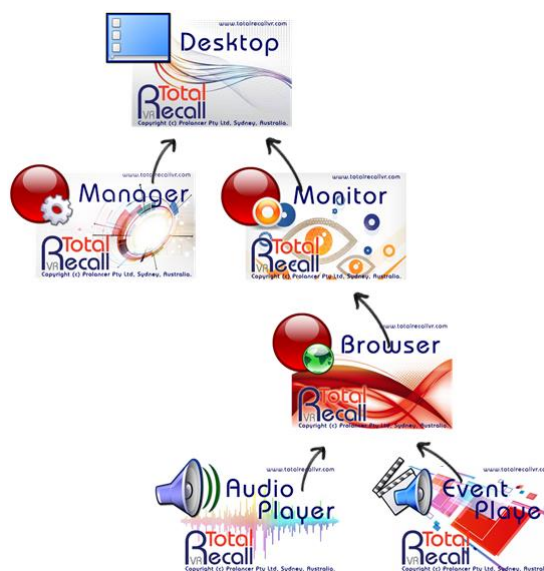

Please follow the instructions in the user guide for the application of choice that you are activating on how to use the Activation Token to activate the application. Note that the PC must be connected to the Internet in order to activate the applications with the Activation Token.

Please note the following regarding the Activation Token:

***Do not use the Activation Token to activate applications randomly as the Activation Token becomes invalid after 3 activations. It is not possible to cancel/reassign activations (Activation Licenses).***

You can use the Activation Token to receive up to 3 Activation Licenses. The Activation Token becomes invalid once you receive 3 Activation Licenses. So, if you are unsure which application is best for you, then please do not use the Activation Token to activate applications randomly. Instead, use the built in Trial Token that is available in each application to receive a Trial License which will enable you to use the application for a short period of time during which you can decide if the application is suitable.

The following figure shows the capabilities of each PC applications.

In summary, the Total Recall VR Desktop includes all the features that are available in the Total Recall VR Manager and Total Recall VR Monitor which in turn includes all the features that are available in the Total Recall VR Browser which in turn includes all the features that are available in the Total Recall VR Audio Player and Total Recall VR Event Player.
